

MEDIA RELEASE

September 4 2008

COMMENCEMENT OF THE WORLDS LONGEST GOLF COURSE

The Project Committee wish to announce the completion of Phase one, with the lodging of the application for clearance permit from the West Australia Department of Environment and Conservation. Completion of this phase was delayed slightly due to unforeseen circumstances. The application was lodged Tuesday 2nd September 2008.

The **commencement of construction** began on Friday 25th July 2008 at 11.30am on Fraser Range sheep station 80 Kilometres east of Norseman. The first survey pegs were put in place, signifying the first ground breaking steps to the realization of this exciting Tourist development.

Spectrum Survey Director Russell Haigh surveyed the placement of the 11 holes that will be constructed along the Highway from Norseman to Ceduna. The survey was completed by Friday 1st August 2008.

On receipt of the clearance permit Phase 2 will continue with McMahon clearing the fairways at Fraser Range, Balladonia, Giaguna, Cocklebiddy, Madura, Mundrabilla and Border Village. On the South Australian side holes to be address are Nullarbor, Nundroo and Penong.

Project Manager Alf Caputo reports that the project is moving forward, but there have been some minor hold-ups. The completion date of July 2009 is a realist target.
